OPEN SOURCE

WordPress Core Contributor — official contributor to the WordPress Core project (contributing since 2022) · profiles.wordpress.org/beaubhavik

Frozzier — Disable Updates & Update Control (v1.1.0) · [WordPress.org plugin author](https://wordpress.org/plugins/frozzier) · wordpress.org/plugins/frozzier
Free update-control plugin that freezes WordPress core, plugin, and theme updates — globally or per item — with an activity log, dashboard status widget, admin-bar indicator, settings export/import, and WP-CLI support. First published on WordPress.org in 2020. Built for agencies, developers, and site owners who decide exactly when updates happen.
